

Company Profile

CREATING THE DIFFERENCE

With ever changing business realities, it is getting harder for brands and businesses to cut through the crowd & to get attention of audience.

We help you get there

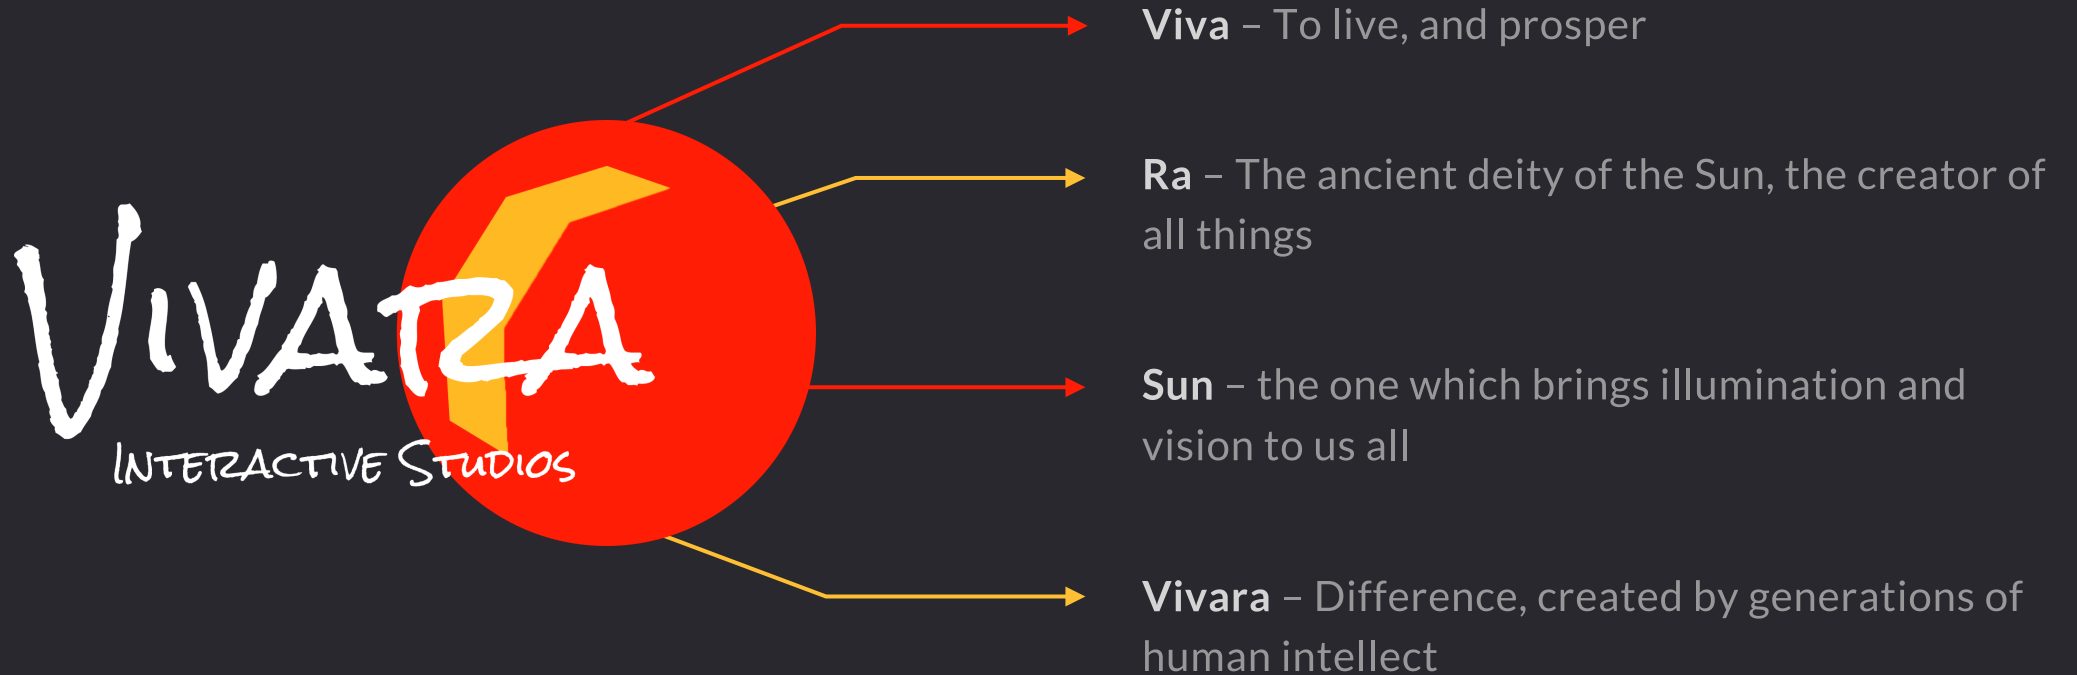

About **Vivara**

About Vivara

What is Vivara

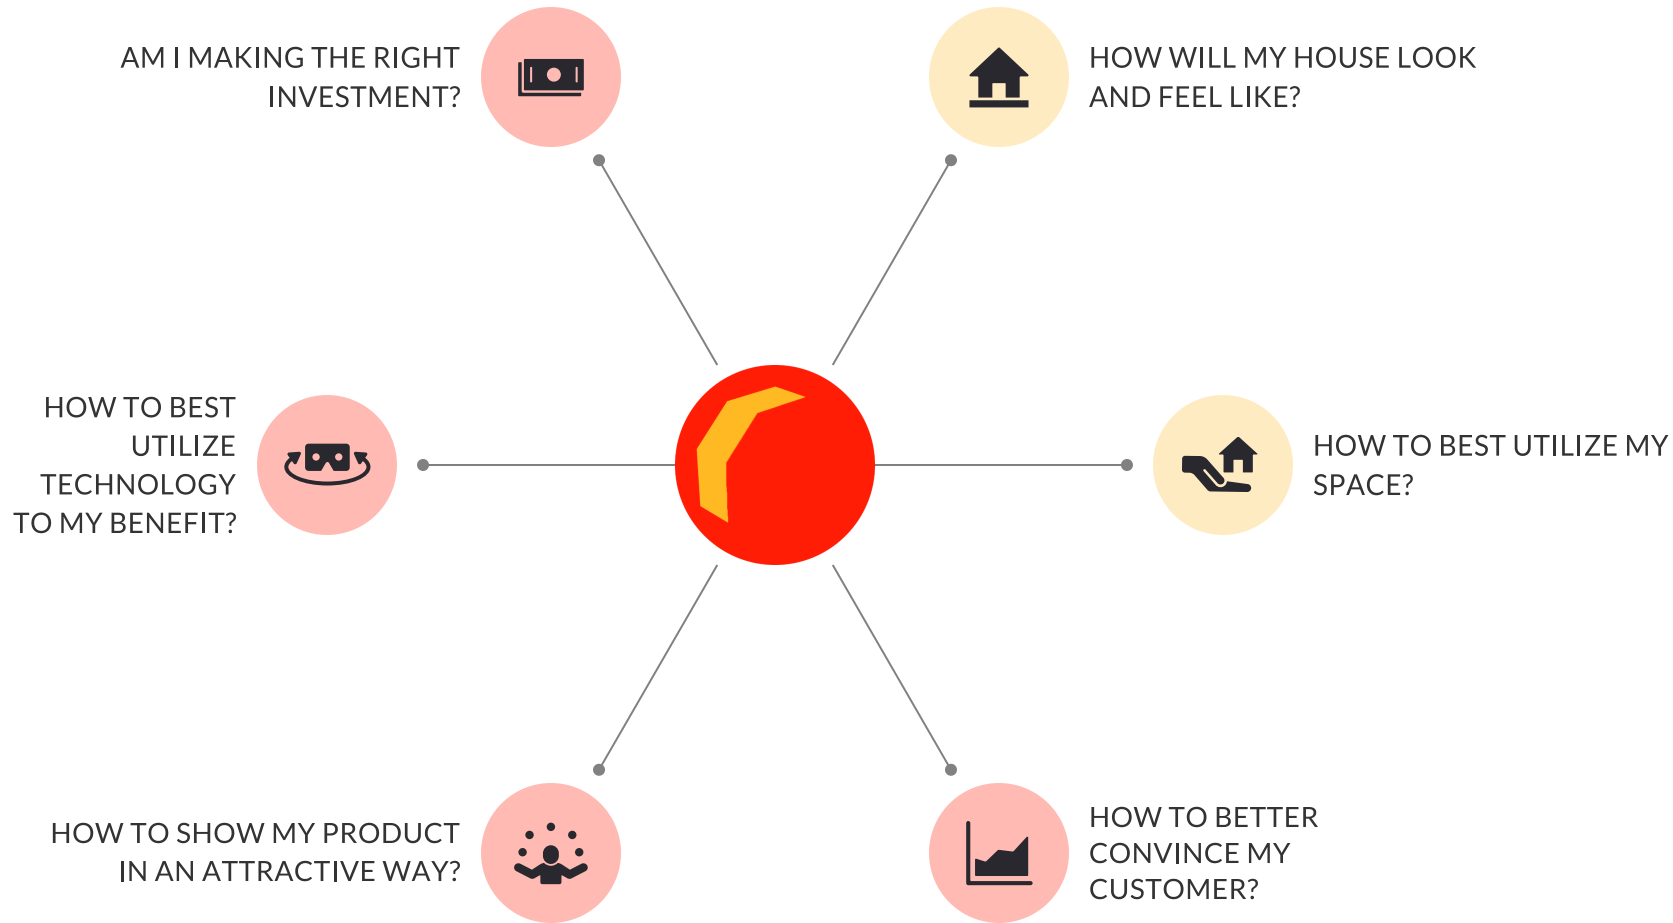

Our Strengths

In all of our projects, we keep a keen eye for details, so that no gem is lost

We closely work with you, with a streamlined exchange of ideas and delivering best client experience

How Vivara can help

Why Vivara?

Best Visual Quality

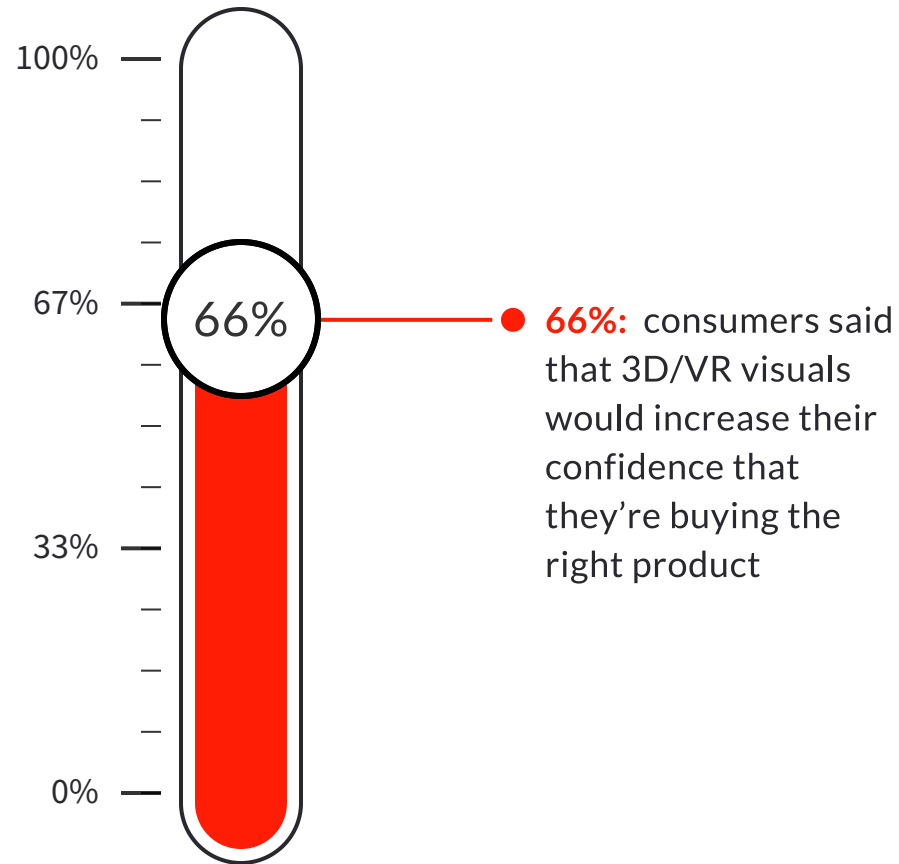

Budget Friendly compared to competition

Creative ideation is our core strength

Fast turnaround time and strict timelines

Why 3D?

Why visualizations are becoming crucial

- “Wouldn’t it be great if I could see the full view of this new printer on market”
- “I wish I could see how this coffee table went with my drawing room design”

The **Solution**

We believe that our client's product should be flaunted in all its glory!

The new age consumers are banking more and more on product visuals through 3D renders along with 360° navigation to make informed purchase decisions.

We help our clients give consumer what they want

Our Design **Philosophy**

We closely work with the client team for the requirements
Design perspectives inputs with minute details are discussed
The layouts are thoroughly researched and then the design process begins

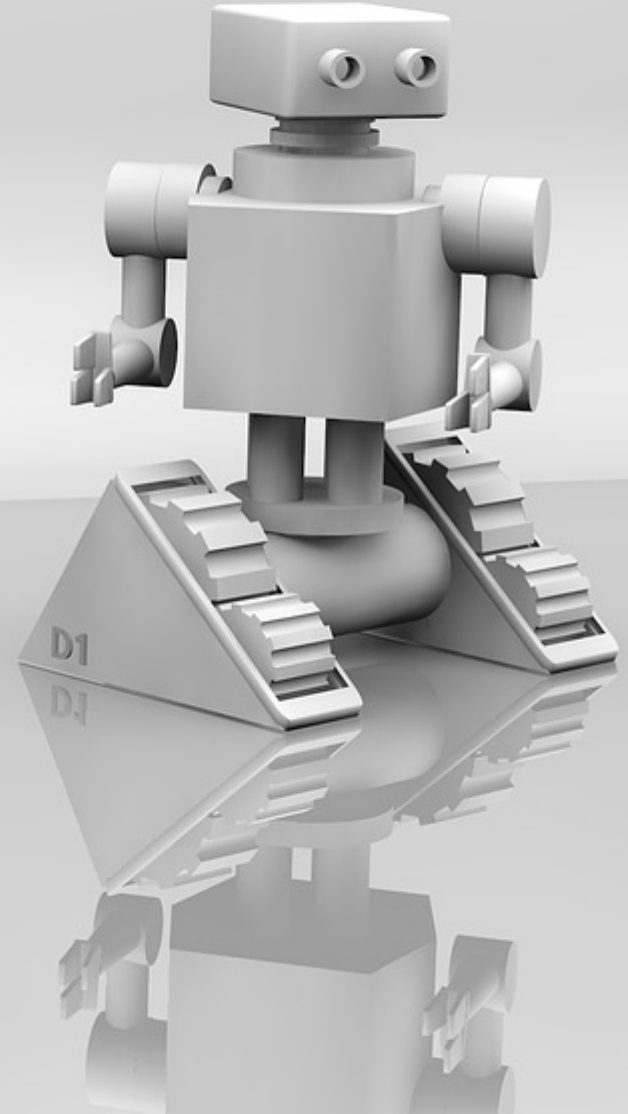

Detail Oriented: In all of our projects, we keep a keen eye for details, so that no gem is lost

Reliability: Handover the project and then forget about it – just see the results!

Commitment: We closely work with you, with a streamlined exchange of ideas and delivering best client experience

Products / deliverables: Various 3d views, 360 view and VR walktroughs

Title & Credits

Architecture Visualization

Instill Confidence

It is always to “see” rather than to “hear” how would your home look like , thus the visuals play an important role in the Property Sector.

Let us shoulder the responsibility

We provide the timely delivery of 3D live Walkthrough Animation for Builders & Real Estate Developers.

Put your best foot forward

We are providing exclusive 3D Architectural Animation Services which would really enhance your project and take it to another level.

Virtual Reality Walkthrough

As the name suggests Virtual Reality (VR) is a realistic virtual projection or a simulated experience using a graphical method. It has various applications from Architectural presentation digital marketing, Gaming , training , medical etc

We at Vivara specialize in developing and delivering customized Virtual reality solutions to help you stand apart and above the competition.

Virtual architecture walkthrough is one great tool used for an interactive experience which has proven to ease the decision making process and has emerged as a game-changer

Koru UX Design | www.koruux.com

“ We worked with the team at Vivara Studios to help us put together an explainer video for a complex concept. As a UX design company specializing in designing enterprise products ourselves, we had high expectations around the quality of delivery with tight timelines to work with. It was nice to have the team at Vivara approach our brief with a methodological process following a few initial reviews where we could mutually align our expectations and define milestones. Periodic updates and review sessions helped us keep things on track with no surprises in the end.

They were great at communicating and would respond promptly allowing us to scale and make progress. They were extremely open to feedback and transparent in terms of setting expectations.

It was a great collaboration, and **we highly recommend them.** We look forward to working together again. ”

Kshitij Kaushik
VP of Experience Design

CHOKORE™

“Akshay is a kick ass founder of Vivara who is so quick to understand client needs and then translate them into actionable videos / gifs etc. His strength is creative execution, and he delivers them superbly. I am so happy to have him as an agency which doubles up as a friend who is there when you need him. His execution timelines and detailing is great.

Go for Vivara,,

Akash Verma
Co Founder - chokore

“Visualization is a new tool for humanity to evolve further in its creative expressions.

Vivara Interactive Studios is a promising incumbent in visualization in the Indian context.

They are capable to present clients vision in novel and contemporary ways”

Prof. Ar. Asok Putivan

Let's do great things together.
